Trim

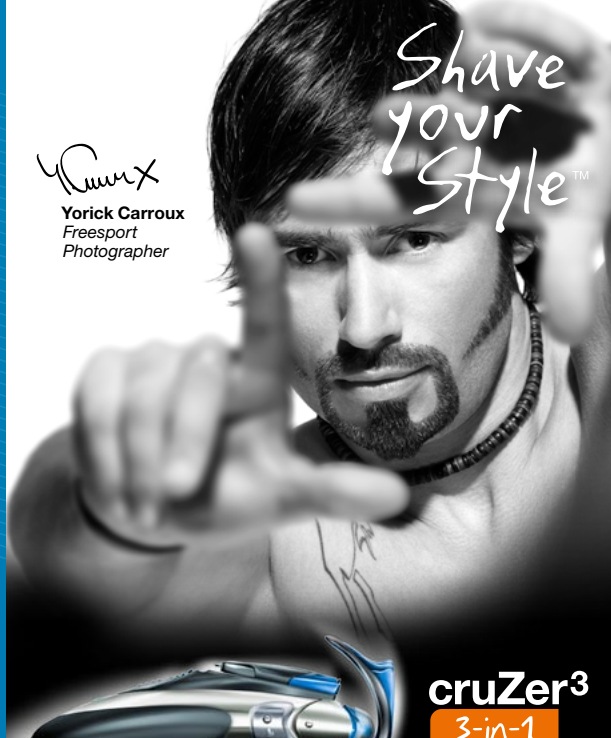

How2Shave

- + Always trim first, then shave afterwards, following the natural growth of the hair and your face's lines.
- + Shave before washing, as the skin tends to be slightly swollen afterwards.
- + Stretch the skin and shave against the direction of beard growth holding the shaver 90° to the skin.
- + If it all goes a bit Craig David, just shave it all off—beards always grow back!

BRAUN

Styles by Fabio

International stylist Fabio Vivan is an inside expert in the world of hot new trends. He has beefed up everyone from Kasabian to the Zutons and the Rolling Stones and knows all about the do's and don'ts of styling. When Fabio is not working in his home base of London, he travels to fashion shows and shoots all around the world to make stars and celebrities shine.
